

First Review of Shoreline Management Plan Sub-Cell 3C Lowestoft Ness to Felixstowe Landguard Point

Key Stakeholders Forum

A Key Stakeholder is a person or organisation with a significant interest in the preparation of, and outcomes from, a shoreline management plan. This includes agencies, authorities, organisations and private bodies with responsibilities or ownerships that affect the overall management of the shoreline in a plan.

The Key Stakeholder Forum (KSF) acts as focal point for discussion and consultation through development of the project. The membership of the group should provide representation of the primary interests within the study area, ensuring consideration of all interests during review of issues. Inclusion of this group offers a more participatory process. This group is to be involved through workshops and meetings. The incorporation of this group provides direct feedback and information to the RMF, CSG and consultant, and acts as a focal point for the consultation process.

The Membership of KSF is proposed as:

Alde & Ore Estuary Planning Partnership
Aldeburgh Town Council
Alderton Parish Council
Anglian Fishermen's Association (2004)
Anglian Water Services
Associated British Ports
Bawdsey Parish Council
